After writing the original five sentences using the word word, students will be asked to surround the words made with the preffimation. This is a great practice to learn how to use and identify the prematures of Greek and Latin! The premediture is the part of the word added to the front of the basic word to change its meaning. More than one preliminary may mean the same thing. Circle the starting part in each word. Then write down the meaning of words on the line. You can change the meaning of a word by adding a prefiction to it. See each basic word below. Which parts of the word are often added to it? Select the correct one and write a new word on the row below it. Rewrite each sentence by adding a part of the word to the underlined word to change its meaning to the opposite. Add a precedent to each basic word to create a new word. You can use each part of the word more than once. Some words may take more than one. Parts dis- means no. Write a word that contains dis- to equip each Use the precedent to create a word that has the meanings shown. Write your word on the line. The word starter un-meaning no. Words outlined in each sentence below are incorrect; the opposite should be in its place. Fix each sentence by writing the correct word on the line. Use de-commissioning. Circle the correct parts of the word that go with each word. Write a new word on the line. Complete the table by filling in the prefix that goes with the root word and write a word that matches the meaning provided. Add one of the sections below for each to create a new word. Write a new word on the line. Preliminary circles in each word. Then match the right meaning. The premediture is the part of the word added to the front of the basic word to change its meaning. Adding changes the meaning of a word, so that it means to do (basic words) again. A circle of words containing the correct precedent. Pretermination is the part of the word added forward the basic word. Each premedent has a meaning, and when you add a word to a word, the meaning of the preliminary changes the meaning of the word. Words.
